

**SERVO****DC Disintegrator Head**

The Servo is a high performance disintegrating head engineered for heavy duty and precision use. Using electrodes from .020" to 1" diameter (0.5 to 25 mm), it will take out broken tooling (taps, bolts, drills, fasteners) from #2 (2 mm tap size up to 2" (50 mm) diameter in a single pass. Larger diameters are handled in multiple passes.

Servo Head is easy to operate with 12 inches (305 mm) of continuous feed. Full travel adjustable depth stop. Operates in manual or full Servo control at any angle. Includes a 1 year warranty.
